

EGIR Meeting June 7-8th, 2018: Abdominal Insulin Resistance

Wednesday, 6th June

Arrival to Lille (for people outside France)

20h00: Dinner

Thursday morning 7th June: Intestinal Diabetes

Chairs: To be announced

08h.50-09h00: Welcome to Lille address

09h00-09h30: Invited Speaker: Gilles Mithieux, INSERM U1213, Lyon, France
Gut-brain glucose signaling in energy homeostasis

09h30-10h00: Invited Speaker: Alexander Miras, Imperial College London
Effects of a RYGB with a long biliopancreatic limb on insulin sensitivity

10h00-10h45: Abstract Session 1

10h45-11h00: Coffee Break

11h00-11h30: François Pattou, University of Lille, France
Diabetes and glucose absorption

11h30-12h45: Abstract Session 2:

12h45-14h00: Lunch on Site

Thursday afternoon: Metabolic Targets of NAFLD

Chairs: Philippe Lefebvre and John Jones

14h00-14h30: Invited Speaker: Bart Staels, Institute Pasteur de Lille, France
Metabolic targets in the treatment of NAFLD

14h30-15h00: Invited Speaker: Catherine Postic, Institute Cochin, Paris, France
The transcription factor ChREBP: From glucose sensing to Fatty Liver Disease

15h00-15h45: Abstract Session 3

15h45-16h00: Coffee Break

16h00-16h30: Invited Speaker: Amalia Gastaldelli, CNR, Pisa, Italy
Liver- muscle cross talk and amino acid metabolism in NAFLD

16h30-18h00: Keynote Lecture: Elé Ferrannini
Title of Presentation: to be announced

18h00-19h00: RISC Investigators Meeting and EGIR Annual General Meeting

19h30 Dinner

Friday morning, 8th June: Islet Cell Demise in Diabetes

Chairs: Caroline Bonner and John Petrie

09h00-09h30: Invited Speaker: Adrian Liston, VIB-KU Leuven, Belgium
Beta cell fragility and the MANF pathway

09h30-10h00: Invited Speaker: Sven Gopel, AstraZeneca, Mölndal, Sweden
SGLT2 blockers and Cardiac function: the 2 faces of glucagon

10h00-10h45: Abstract Session 4

10h45-11h00: Coffee break

11h00-11h30: Invited Speaker: Patrik Rorsman, University of Oxford, UK
Insulin, somatostatin and glucagon in pancreatic islets: more than the sum of the parts?

11h30-12h00: Invited Speaker: Jean-Sebastian Annicotte, CNRS, UMR 8199 Lille, France
E2F1 and pancreatic beta cells: from function to dedifferentiation

12h00-12h45: Abstract Session 5

12h45: Close of Meeting, François Pattou

13h00: Farewell Snack and End of meeting

Guidelines for presentations: invited speakers: 20 min ppt+10 questions and abstract sessions: 10min ppt+5 questions (3 abstracts per session)
